

User App Notifications

P4T Challenge Auto Notifications

Challenge Starts Today now March Madness starts today! Stay active and open the Pacer app at least once per day so your challenge progress is up-todate.

- Activated when admin publishes a challenge. No other actions required.
- Sent at 09:00 am in participant's global time zone on start and end dates.
- Includes specific challenge name.

- Sent 24 hours after user last opened Pacer.
- Wearable users should sync wearable app too.

Announcements: App Notifications

- Send time is account owner's (admin's) local time zone.
- Not participant's local time zone.

1

Pacer for Teams

• Participants can view it in the app.

In App Pop-Ups: Connect a Wearable

DATA & SYNCING	
Apps & Devices	>
Steps Data Source	>
Data Export	>
NOTIFICATIONS & REMINDERS	
Push Notification Settings	>
Reminder & Pop-up Settings	>

• New users who join your P4T org should see a Connect a Wearable window.

E

Pacer for Teams

• The button will shortcut user to Data & Syncing > Apps & Devices Menu.

In App Auto Pop-Up: Post Challenge Survey

• When users access a challenge leaderboard near the end date, Pacer will ask them to complete a short challenge experience survey.

4

Pacer for Teams

• Answers are saved in the admin platform, and can be viewed and exported.

In App Auto Pop Up: No Manual Data Entry Allowed
